Integrate Workday:

Integrate Workday
Data across the Enterprise

SAPPER.

Workday is an excellent tool of finance and human capital management, It is widely used across enterprises for employee management and better financial decisions. But the human resource and finance department also has many other applications which work simultaneously with Workday. For a seamless operation, you need to integrate these on-premise or cloud-based applications into Workday.

Sapper's Intelligent Integration and automation platform allows you to seamlessly integrate various Workday applications to any in-house or cloud-based applications. Using Sapper's API and integration design, enterprises can easily build workflows across different activities such as talent management, payroll, employee benefits financial decisions etc. Combine all the cross functions like HCM, finance, payroll, CRM, analytics across enterprises to provide a complete view of data across the enterprise.

With such an intuitive and integrated platform, you can:
Design Integrations:

- Connect any data sources
- Build customized workflows
- Integrate any application with AI
- Automate manual business process
- Intelligently map data fields

Deploy Easily:

- Create and Publish API's internally or externally
- Create secure local connections with inhouse applications
- Scale flexibly to meet the needs of real-time
- Run cloud, on-premise or hybrid

The Sapper's API integration enables enterprises to integrate thousands of applications and create and deploy API's from existing systems.
