

Microsoft Dynamics Integration:

Amplify the power of Microsoft Application

SAPPER.

We all know Microsoft is best at whatever it does. It powers some of the biggest business in the world. But the power of Microsoft tools can ne be amplified by connecting it with third-party tools. No organization just relies on one application for all its tasks. With Sapper's intelligent integration and automation you can create a digital ecosystem of dynamic applications between Microsoft and other third-party apps. Sapper's intelligent integration and automation could enhance your data collection and storage that happens through various apps and simultaneously improve data collection through Microsoft applications.

ERP or a CRM system, dynamic or otherwise, on-premise or cloud, it doesn't matter. Sapper's intelligent integration and automation can get the right data at the right place with data mapping and transformational abilities. When different systems are integrated and made to work in a synchronized manner, data collection and maintenance becomes easy. It eliminates manual errors and enhances your business process and revenue.

Microsoft Dynamic Integration Benefits

- Pre-built connectors for Microsoft Dynamic extensions
- Eliminate manual data entry
- Automate business processes
- Amplify the power of all the Microsoft tools
- Streamline collaboration between partners and customers

With such an intuitive and integrated platform, you can:

Design Integrations:
