Sapper Overview:

Imagine, Develop and Run your Automation

SAPPER.

About Sapper

Sapper is an Intelligent Integration and Automation Platform. Leverage Sapper to automate your application integration, data integration, AI and Bot integration. It is as simple as connecting the dots.

You can leverage Sapper to accelerate integrations between applications, eliminate manual errors in processes, accelerate time-consuming activities and eliminate repetitive tasks.

Enabling Intelligent Integration & Automation

Application Integration
Intelligently automate integrations between SaaS applications, data applications and APIs.

SaaS Data Integration
Intelligently automate data integration between cloud applications, files, spreadsheets and data stores.

Bot and AI Integration
Automate interactions and integrations between different AI systems and Bots.

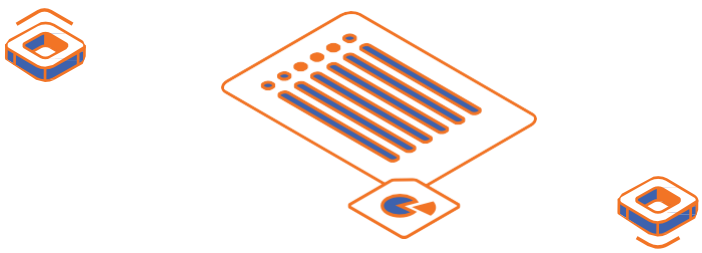
Develop and Innovate Rapidly with Sapper

Sapper is an easy to use, enhance and maintain Intelligent Integration and Automation Platform. Our AI-driven design ensures that you no longer need to use multiple purpose-built tools for your application integration, data integration and bot automation.

With Sapper you can go from thinking about an automation to having it working less than a week. We provide several pre-built automations for employee onboarding, learning management as well as synchronizing data between your cloud-based applications.

Automation is as simple as connecting the dots with Sapper.

With Sapper you accelerate the automation of your departmental or business functions by integrating all the applications you use



Sapper Overview:

Imagine, Develop and
Run your Automation

SAPPER.
