ServiceMax Integration:

Get Maximum out of your work with
ServiceMax Integration

SAPPER.

ServiceMax is a software that provides cloud based software platform which is designed to improve productivity of complex, equipment-centric service execution for OEMs, operators, and 3rd-party service providers i.e it provides support to companies across industries to manage work orders, plans, schedule assignments, provide technical support, contracts and entitlements, proactive maintenance, and parts inventory management.

The ServiceMax platform is designed to optimize the service execution processes and is used by service technicians, dispatchers, service planners, and their managers. Sapper's Intelligent Integration and Automation integrates ServiceMax with field service management processes, like any in-house softwares, 3rd party applications or even cloud based systems. By integrating ServiceMax you can effortlessly manage your niche, it's various field processes and all the technicians. With Sapper's smart ServiceMax integration your enterprise can become even more organized and productive. That's almost everything that an organization needs.

With such an intuitive and integrated platform, you can:
Design Integrations:

- Connect any data sources
- Build customized workflows
- Integrate any application with AI
